The Honorable Debbie-Anne A. Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

RE: CP27-13-000, Eastern Gas Transmission & Storage, Inc. Project Stratum

Dear Ms. Reese:

I am writing to express my support for Eastern Gas Transmission and Storage's (EGTS) application to the Federal Energy Regulatory Commission for Project Stratum. I am the Pennsylvania State Representative for the 68th Legislative District which is home to the Sabinsville Station proposed project, but I support all of Project Stratum as expanding access to reliable natural gas is essential to continue growth in manufacturing and other businesses all across Pennsylvania.

It is my understanding that (EGTS) proposed Project Stratum to meet the growing energy needs of customers across Pennsylvania. Project Stratum will leverage existing EGTS infrastructure while increasing the capacity on its system through pipeline additions and station upgrades. This upgrade will create 250,000 dekatherms/day of firm transportation capacity from receipt points at Tioga County, PA with looping in Beaver, Clinton, and Potter Counties. They also have proposed new delivery points in Lawrence County, PA and Clinton County, PA.

Currently (EGTS) operates close to 4,000 miles of pipeline. They safely mover natural gas from production fields, storage fields and to end users to help meet the needs of residential and commercial customers across the region. I thank you in advance for your careful and timely review of their request and urge the issuance of the certificate of public convenience and necessity to allow them to move forward with these very important improvements to the infrastructure.

Sincerely,

Clint Owlett
Pennsylvania State Representative
68th Legislative District
