November 10, 2026

The Honorable Debbie-Anne A. Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

RE: CP27-13-000, Eastern Gas Transmission & Storage, Inc. Project Stratum

Dear Secretary Reese,

As the State Senator for the 25th Senatorial District of Pennsylvania, serving constituents in Cameron, Clinton, Elk, McKean, Potter and part of Jefferson and Centre Counties, I am writing to express my strong support for the application submitted by Eastern Gas Transmission & Storage, Inc (EGTS) for Project Stratum (Docket Number CP27-13-000) to increase the capacity on its existing pipeline system.

Project Stratum will leverage existing EGTS infrastructure while increasing the capacity on its system through pipeline additions and station upgrades. This will create 250,000 dekatherms/day of firm transportation capacity from receipt points at Tioga County, PA with looping in Beaver, Clinton and Potter Counties, PA. Additionally, new delivery points are proposed in Lawrence County, PA and Clinton County, PA.

My office has not only been engaged with the Eastern Gas Transmission & Storage project team but has interacted with residents who will be directly affected by this project. Through those discussions, we feel that community stakeholders are in support of Project Stratum moving forward.

Because Project Stratum, as proposed, will meet the growing energy needs of customers across Pennsylvania, and has been very proactive in garnering the feedback and perspective of effected residents, I would ask for your approval of their application for a Certificate of Public Convenience and Necessity.

Sincerely,

Cris Dush
State Senator – 25th District
